### NOTES TO EDITORS

**KAZ Minerals PLC** ("KAZ Minerals") is a high growth copper company focused on large scale, low cost, open pit mining in Kazakhstan. It is a leading copper producer in Kazakhstan with five operating mines and four concentrators. Total copper cathode output in 2014 from continuing operations is expected to be between 80 kt and 85 kt.

The Group has two major copper projects under construction, Bozshakol and Aktogay, and a third, Koksay, at scoping stage. These projects are expected to deliver one of the highest growth rates in the industry and transform KAZ Minerals into a company dominated by world class open pit copper mines.

KAZ Minerals PLC is listed on the London Stock Exchange, the Kazakhstan Stock Exchange and the Hong Kong Stock Exchange. Restated pro forma revenues from continuing operations in 2013 were \$933 million and restated EBITDA for the continuing operations in 2013 was \$389 million. KAZ Minerals employs around 10,000 people, principally in Kazakhstan.
